## Introduction

Dear reader, in this book you will have access to a simple but effective way to contact the angels, the method of this book is based on your imagination and a suitable place for a journey through the heavens, this book has 224 angelic seals and 2 seals of Adonai and Ashera, with various powers spread over several books and manuscripts in a single place, including angelical choirs and of course, some angels little known to mankind.

Angels are not inaccessible beings as many think, all of us can contact them, there is a lot of mysticism about their personalities, forms, voice, angelic choir, some people in the occult see them as spirits who don't care about humanity, powers so distant and formed of ego and destruction, this book is not to challenge these beliefs, but to challenge the reader to take a step forward and experience what I'm going to pass in these pages. This book was an inspiration by my guides, Raziel, Umabel and others angels, a light at the end, a light to all who are desperate and afflicted, with the angelic power, we have infinite possibilities at our disposal, I think it is correct to say that, we can be co-creators of our reality with the divine help; I hope that everyone can have this book, as an aid to their earthly experiences, and realize, that angels, are closer than can be perceived.

Is a way of working among all the others, in this book you can have a more intimate and deeper contact with the angels, and as any book, enjoy the reading and hopefully have great results.

## The revelation

The need for this book came in an unexpected way for me, we can find great content of the sacred scriptures online, the technology has been helping humanity in a surprising way, unfortunately we have a lot of content cut into various sites, books and places, which can get in the way the studies and practices for each person, of course the research is part of self-knowledge, every effort to connect with the angels is rewarded, here we can have their in a single book, without the need to get several books at once to research and get the what you want. When we connect with the angelic energies, we can naturally flow with our journey, and that's why the need for this book came, to help everyone who needs help on their journey on this planet, all of us, we go through difficulties times, through moments where we don't see light or hope for improvement, sometimes pain is part of the evolutionary process of humanity, each human being is unique in their essence, each has their mission, their goal, but everyone who is here on we call earth, is to learn, whether seeking a union with the divine or seeking their divine individuality. Regardless of your choice, you know that if you are true, humble and respectful of angels, you will have help.

## What are Angels

The word angel comes from the Greek "Malack", the translators of the time had two choices in this case, the word can be translated to "Angelos" or "Daimons", while "Angelos" had its meaning as a common messenger, "Daimons" was represented as a spirit that can do both good and evil, and so, the biblical translators have chosen to use "Angels" to remove the connotation of evil from a spirit that serves the creator, exalting only its "kind" and "Light" sides, "Malack" is also used to describe an angelic caste or order of warriors, literally severe angels, of justice, wrath, and punishment; No one has information of their creation or how they were created, we can observe that these spirits suffered influences from the deities of the Babylonian and Zoroastrian era, and also some Greek influences like Eros and the winged beings.

Their appearances have been discussed for a long time, each person will interpret the energy of an angel in a different way, this is based on their capacity for spiritual visualization and the current state of their 3rd eye, it is common that our energetic state can interfere with the captured angel image in the sacred temple, which will be addressed in the next chapters, each angel has its essence and its form and vibration, and tend to appear to humanity in the best way that their vision and understanding can see.

You will notice that the angels in this book have their abilities described as "powers", but this does not mean that they only act on what has been passed here, every angel has their powers far beyond of what has been described, and this is only revealed to people who create a relationship and frequent contact with them.

## The angelical hierarchy

A very approached and not very practical subject, angeology has grouped the 72 angels of shem hamephorash in 3 orders, and in each order, 3 groups of angels, it is extremely common for people who have no practice or a little knowledge in angelical magic, to quote these orders and call that the higher up the hierarchy, the more difficult or more complicated it is to deal with the being in question, especially with the Seraphim, who are described by Pseudo-Dionysius as the closest chorus to God, I leave in the following pages just to elucidate on the subject to the people who like, it can be observed that the performance of the angels in question goes far beyond what is cited in these orders or "angelic choirs", and even their performances, appearances, personalities and forms can be extremely different from their order, because in practice, each and every person can access each and every angel with faith, practice and determination.

The order described by Dionysus is as follows:

The first order: controls the order and laws of the universe, and the manifestation of the divine will.

1. Seraphim
2. Cherubim
3. Throne

The second order: they represent the power of God and are in charge of governing the planets, executing the divine order.

4. Dominions
5. Virtues
6. Powers

The third order: they protect and guide humanity in its evolutionary processes, and guide the prayers to the creator.

7. Principalities
8. Archangels
9. Angels

The description of each angelic choir:

1. Seraphim: it is said as the highest choir, its appearance is represented by a 6 winged angel that covers its faces and feet, its brightness is intense and they sing tirelessly the chant "Kadoish, Kadoish, Kadoish Adonai Tsebayoth", which means "Holy, holy, is the lord of hosts"

2. Cherubim: are guardian angels of places that wield swords and flaming weapons, are described as spirits with 4 wings and 4 faces, which are of a man, a lion, a bull and an eagle, look at the 4 cardinal points and represent the 4 elements, it is also said that their bodies are covered with eyes and fire.

3. Thrones: they are described as flaming wheels covered with eyes and fury, they are divine "chariots" and carry prayers to the creator, they are extremely serious and their voices are like thunder.

4. Dominions: they are described as divine judges of the law of the cosmos, advocate missions to all choirs according to the will of the creator.

5. Virtues: this choir grants virtues and love to human beings, governs the evolutionary processes of all creatures and is in charge of the stars, the planets, the cosmos and so on.

6. Powers or Potencies: these are described as those who are in charge of divine justice, are a choir of war, weapons, punishment, justice and destruction.

7. Princes or Principalities: they are in charge of protecting and guiding all humans who have high authorities or positions, which can help or harm humanity, govern nations, faith and religions.

8. Archangels: they are described as messengers of urgent causes, it is said that they fight tirelessly against evil.

9. Angels: they are described as those closest to humanity, and their mission is to guide every soul towards spiritual evolution.

## Preparing for the journey to heaven

There are certain practices that should be adopted for a more enriching experience, I'll leave here what I recommend to be doing and avoiding problems during your ritual, some things are essential and others are optional but highly recommended.

### Essential

1. On the day of the ritual, do not have sexual intercourse
2. Avoid heavy foods
3. Do not do the ritual right after eating
4. Keep mind and body centered in the ritual
5. Avoid consuming any kind of content about death, aggression and so on
6. Do not do the ritual and its steps running or in a hurry, each part should be done and visualized as clearly as possible and calmly, until your mind can see a glimpse of the way you are being connected, do this and then move on to the next step of meditation.

### Optional

1. Do not ingest any kind of meat and egg on the day of the ritual
2. Avoid any kind of sex and pornography for 3 days before the ritual
3. Do your practice in a quiet place and without the possibility of interruptions of relatives or noises, for those that this is not possible, try to do it at night or at a time that knows will not be interrupted
4. Do a meditation before the ritual, to clear your mind
5. If you are feeling very loaded or heavy, take a bath in white rose with basil and mint, just after your normal bath, if the herbs are fresh, just macerate them in water, if they are dry herbs bought in packets, boil them in water and throw them on your body.

The following exercise, I leave for those who want to relax the body and get in the ritual, follow the steps indicated:

1. Sitting or lying down, become aware of the beats of your heart
2. Start to feel the flow of blood through your veins and your body
3. Focus your attention on your feet, and visualize your skin, muscles, blood and bones, in this sequence, relaxing each part as you visualize.
4. Focus your attention on your legs, and visualize your skin, muscles, blood and bones, in this sequence, relaxing each part as you see it.
5. Focus now on your torso, and visualize your skin, muscles, blood and bones, in this sequence, relaxing each part as you go viewing.
6. Focus on your arms, and visualize your skin, muscles, blood and bones, in this sequence, relaxing each part as you go viewing.
7. Focus on your neck, shoulders and head, and visualize your skin, muscles, blood and bones, in this sequence, relaxing each part as you go viewing.

Now we will work on cleaning the chakras, after you have relaxed, follow the instructions below:

1. Focus on the base chakra, which is at the base of the spine, now feel and visualize its red energy expanding inside you, as the energy expands, let it flow, the recommended is to keep this visualization for 5 minutes in each chakra.

2. Focus on the sacral chakra, which is a little below the belly button, now feel and visualize your orange energy expanding inside you, as the energy expand, let it flow.

3. Focus on the solar plexus chakra, it resides in the center of your torso, a little below your heart, now feel and visualize your yellow energy expanding inside you, as the energy expand, let it flow.

4. Focus on the heart chakra, it resides in the center of your chest, now feel and visualize your green energy expanding inside you, as the energy expand, let it flow.

5. Focus on the throat chakra, now feel and visualize your turquoise energy expanding inside you, as the energy expand, let it flow.

6. Focus on the third eye chakra, it resides between your eyebrows, focus also on your two ears and your auditory channels, and now feel and visualize your purple energy expanding inside you, as the energy expand, let it flow.

7. Focus on the coronary chakra, it resides on top of your head, now feel and visualize your violet energy expanding inside you, as the energy expand, let it flow. This exercise is great for cleaning and opening the chakras, and if done daily, it can intensify various aspects of your spirituality, both in the part of seeing, hearing, feeling etc, the suggested time for each chakra is 5 minutes, totaling 35 minutes of exercise, this time is symbolic because no one will stop to see the time in the clock, during the exercise, you can move to the next chakra when you start to see his color in your mind, and when you feel it expanding inside you for a few moments or minutes, do not do it in a hurry, because it can damage the results. These steps are what I consider essential to have a stronger connection and have a better use of the method in this book, I make it clear that, this can be followed for any kind of practice.

## Ascension ritual

The following exercise suit to enlighten your spirit and strengthen you spiritually, in addition to expanding your aura and creating a beneficial vibrational field around you. Let's go to the ritual:

1- Start observing your heart beats and focusing on your heart chakra, see a golden light begin to emerge from it, And follow the pronunciations below:

1- Say the holy name

"AH-DOH-NIGH ME-LEK

AH-DOH-NIGH RÁ AR-ETZ"

2- Say the holy name "SHAD-EYE EL CAI"

3- Say the holy name

"AH-DOH-NIGH TZAH-VAH-OAT"

4- Say the holy name

"ELL-OH-HEEM TZAH-VAH-OAT"

5- Say the holy name "AH-DOH-NIGH EL-OAH"

6- Say the holy name "ELL-OH-HEEM GUI-BOR"

7- Say the holy name "EL"

8- Say the holy name

"EE-AH-OH-EH ELL-OH-HEEM"

9- Say the holy name "YÁ"

10- Say the holy name "EH-EE-EH"

For each name chanted, one should feel the vibration of the name starting from the center of your chest, in the heart chakra and expanding through your body.

This ritual can also be done to strengthen magic and spells, simply chant each word said and in each one, imagine a light or ray that descends from the heavens and pulses in the magic made, can also be used to bless people or spirits, in the case of spirits, ask before if it accepts this type of energy, there are many cultures and faith in this world, and it is very unpleasant someone wanting to project their faith on top of yours.

It can also be used to gain divine authority when working with spirits, demons, daimons etc.

For the students of Cabala, they must have noticed that I chose to use the name "AH-DOH-NIGH" instead of "EE-AH-OH-EH" in some divine names, this was because in conscious astral projections I could see that the name "AH-DOH-NIGH" pulses more energy and vibration than "EE-AH-OH-EH", both are great and if you feel more comfortable using the second, feel free.

## The call of the 4 Archangels

This ritual is similar to the minor ritual of the pentagram, but it is done in a different way, for each archangel in question, you must imagine and feel each phrase described, these phrases are "triggers", "Keys" or "Pathwork", to align with the archangel in question more easily, at the end of each visualization, say the name of the archangel and he will be present, let's go:

Uriel's keys

"Black wet earth"

"Storms with lightning and thunder"

"Forests bathed by the rays of the sun"

"Fire among the clouds"

Rafael's keys

"The sunrise"

"Wind over the mountains"

"The noise of the wind and bird in the forests"

"An eagle that flies through the blue sky"

Gabriel's keys

"A full moon reflected on the sea at night"

"A white dove carrying a white lily"

"The sound of trumpets"

"A circle of fire and water around you"

Michael's keys  
"The sound of a church bell"  
"Blue fire cross"  
"The roar of a lion"  
"A flaming sword"

After the call of the 4 Archangels, you must ask for protection and help in the ritual, this can be applied to any desired ritual, do not limit yourself to using the techniques of this book, only in this book.

## Sacred temple ritual

The sacred temple ritual is the base of every ritual, we will go to a temple above the clouds, using our imagination, for each person the temple will be different, I pass in these lines what was revealed to me by the angels, if the temple is not the same for you, don't worry, it's perfectly normal, in fact, I want you to have your own experiences in this temple, let your mind flow, let your spirit flow in this sacred place, the rituals should be done for a period of days that you find comfortable, this will depend on each person and each request, for requests that you want to build something, such as your intuition, do every day to intensify or have the desired result, everything will depend on the nature of your request, in other cases, do it only once if you have positive confirmation that the angel will help you.

Each part of this guide has a purpose, a meaning from behind, each part must be done with calm and concentration, and should not be done in a hurry.

At this moment, start looking at the seal of the corresponding angel, it is not necessary that you know how to read in Hebrew, just observe it, the Hebrew letters form spiritual portals for the name in question, the seal was designed so that you can connect with the divine and align your vibration with the angel, as well as be much closer to who you want, know that at this moment a connection is already formed with the angel in question, look at the seal thinking about your situation that you want to resolve.

Now, you must visualize the following sentences, one at a time, when visualizing, you must be completely in the visualization, feeling the environment around, feeling the sensations of the body, the secret is to tune all 5 senses, which are: Smell, Touch, Hearing, Vision and Taste. Exercising each one of them in visualization, it becomes stronger and more intense, it is not to you lick the floor or the walls in visualizations to exercise the taste, just be aware of your senses, you should visualize until you see a glimpse of the scene in your mind, then just follow each one in its order, in the beginning it is perfectly normal to stop to read and find yourself, however, the best results are when it is done in sequence, without interruptions.

The images that should be viewed are:

"You are standing on a ground, where a blue sky is reflected"

"You see a great stairs that climbs to the highest heavens, and you see a great temple at its end.

"You start climbing the stairs"

"At the end of it, you come across two guardians in the entrance"

"The door opens, and you enter the temple"

"The temple is made of white marble and adorned by nature, you hear the sounds of birds and feel that there, life manifests itself".

"You see yourself in a room with an open roof, and an altar with a sealed scroll"

## The angel's call

To call the angel in which one wishes to work, one must continue with the previous visualizations and do the following in sequence, this serves for any angel described in this book, for the manifestation of the angel, follow these visualizations:

"In the temple, you see the sealed scroll"

"You open the scroll and in it is the seal of the angel"

"The seal is reflected in the universe, and then, you call the angel"

"the angel manifests himself in the temple"

After, just welcome and follow with your request, this can be used to create a relationship with the angel, because both will be closer, every angel appreciates your presence and is totally willing to talk to you, the more rituals you do with the desired angel, the better it will be, because this will create a connection with it.

After your request and talking to the angel, thank him for his presence, say goodbye and end the ritual, simply returning to your routine.

## The 72 angels of Shemhamphorasch

The shemhamphorasch, is a set of 72 divine names of God, each name has 3 letters each, and so was born the famous Tetragrammaton, known as YHVH in 72 parts, these names are from verses 19,20 and 21 of the chapter of Exodus.

"And the angel of God, who went before the army of Israel, withdrew and went after them; and the pillar of cloud withdrew from before them, and stood behind them.

ויסע מלאך האלהים, הלך לפני מחנה ישראל, ויחל, מאחריהם; ויסע עמוד הענן, מפניהם, ויעמד, מאחריהם.

"And it went between the camp of the Egyptians and the camp of Israel; and the cloud was darkness to them, and the night was light to them; so that in all the night it drew not near one another.

ויבא בין מחנה מצרים, ובין מחנה ישראל, ויהי הענן וכהשך, ויאר את-הלילה; ולא-קרב זה אל-זה, כל-הלילה.

"Then Moses stretched forth his hand over the sea, and the Lord made the sea to withdraw by a strong east wind all that night; and the sea became dry, and the waters were broken.

ויט משה את-ידו, על-הים, ויולך יהוה את-הים ברוח קדים עזה כל-הלילה, וישם את-הים לחרבה; ויבקעו, היםים.

To obtain the 72 Divine Names, three verses are written over each other, the 19 from right to left, the 20 from left to right and the 21 from right to left, the names are reorganized and in a way called Boustrophedon (old method of cryptography).

In the following pages, I will leave the descriptions of each angel, his abilities and seal, all the psalms are in Hebrew with their pronunciation, if you wish, you can use it as a way of connecting with the angel, just "sing" as described.

## The sentinels of Enoch

The sentinels of Enoch are angels that appear in the book of Enoch, their story tells that Samyaza and 200 angels fell in love with humanity and desired it, humans in their vile ignorance, had no knowledge and no wisdom about the earth, the crops, the herbs, or the stars, or the art of war, these angels were condemned for bringing this knowledge and relating to humanity, having children, who are the famous nephilim, These children are portrayed as giants on earth, perhaps not in stature, but in knowledge and power, their hunger was insatiable, the book portrays that they brought destruction to the harvest of humans, their crops and consumed their animals, bringing bloodshed on the earth, which in the eyes of the creator, was abominable, it was then that it brought the famous flood of the book of Genesis, to destroy the nephilim and make a new alliance with humanity.

It is good to observe that the knowledge given by the angels or sentinels was not "reproved" or "abominable" in the eyes of the creator, since, they are kept only for them, when the angels took the knowledge to humanity, God reproved, because he saw that, the knowledge would awaken humanity from its "illusory sleep", a small seed planted aeons ago, which today flourished in the most beautiful garden.

The book also breaks great patterns with these angels, such as the fact of repentance, fear, joy or sadness, the sentinels had as many emotions as we humans, love as much as we do and hate as much as we do, in the face of so many emotions and events, they are still present, to all who call them.

In the following pages I will leave their seals and descriptions, most of the sentinels had their names changed by time and translations, many of them have various names and variations, and unfortunately it is not possible to put all the sentinels in this chapter, those presented here were the easiest to access, both for content and spiritual experiences, the vast majority remain "hidden".

Barakiel has already been portrayed as a scorpion angel and therefore will not be addressed in this chapter.

The sentinel Shamsiel and the 10 angel of the 42 letter name or angel of alchemy are the same angel, he will be portrayed here because he has additional information about his powers.

The sentinel Armen and Ramiel, are described as the same angels, and Ramiel is also known as Phanuel and Uriel; The name Ramiel is also considered a variation of the name Eremiel or Jeremiel, which has already been dealt with in the chapter on Archangels.

The sentinel Daniel, is both described as a sentinel and as one of the 72 angels of shem hamphorash, and also has its apparition in the chapter of the 42 sacred names, which I believe is the most correct.

The sentinel Yeratel, is both described as a sentinel and as one of the 72 angels of shem hamphoras.

The sentinel Tumiel and the 5 of the sacred name of 42 letters can be the same angel, although his powers is different as described in the chapter he is addressed.

The name Turiel appears 3 times in some translations of Enoch's book, the 23rd angel of the 42-letter name, Trumiel may be one of those sentinels approached, their real names were probably lost due to time and translators.

We can observe that several sentinels still have their performance in God's name of 42 letters, and also it is not known if the same angel can have the same name of the other, but that are only theories and similarities in their powers, so do not stick to this information as absolute truth...

## When the magic doesn't work

Unfortunately, magic cannot work for everyone, this will depend on numerous factors, the most common is the yearning for results, or lack of faith in it, are the worst means of autosabotage we can do, it is also included the non-fulfillment with the essential and optional requirements in the chapter of preparation.

I see that you can also have interference from spirits around you preventing it from happening, Theirs shows as good beings or even spiritual guides, a frequent way of acting of these spirits is to "vibrate" or "emit" malicious thoughts, to confuse you or deceive you, that's why the importance of mental preparation and cleansing before the ritual, a simple banishment is not enough to cut off this type of spirity, so be aware of these possibilities if you suspect that this is your case.

Sometimes the angel may refuse your request, and this is normal, they tend to see further ahead the unfolding of the situation, and if it's not something good for you, it won't happen, so I recommend to temper your request and during the ritual, have a positive answer from the angel, the doubt will always exist if it will be the angel talking to you or your mind deceiving you, and this is normal, the key to changing this situation is the frequent practice of the exercises I left at the beginning of the book and the relationship that is created with the angel with frequent meditations, and of course, the more open his spiritual channels are, the easier it is to discern.

It is also valid to test different ways of work and contact, feel free to test other means, either the 3 methods of this book, or some other book or author that you appreciate.

## Other ways of practice

There are other ways to connect with angels besides the one described in this book, below, I will leave two simple and effective ways for contact, the method of the temple being the 1st.

## Method 2° Conjunction

In this method, the meditation of the temple is not necessary, it is a way in which we conjure the angel so that he is aware of us and of our request, follow the steps below:

- 1 Perform the Ascension ritual

- 2 Make the call of the 4 archangels

- 3 Meditate on the angelic seal, connecting with the angel in question and mentalizing the seal being formed in the heavens, and then make the following conjunction:

"I invoke and evoke you El, Elohim, Adonai, Adiriron Ehyeh-asher-Ehyeh, El Shadai, make my voice be heard to all the corners of the universe, open the doors of heaven and earth, hear me! I manifest your will and authority here and now, from the beginning to the end of time, (name of the angel) which rules over this seal, hear me!"

- 4 If you are working with one of the 72 angels shem, sing the sacred mantra and after the psalm of the angel and call out the name of the angel 3 times imagining the heavens opening and make your prayer or request.

- 4.1 With the 42 angels, sing the sacred word and after their mantra and call for the angel 3 times imagining the heavens opening and make your prayer or request.

- 4.2 With the 36 overlords angels, sing the holy names in their order, from the first to the second, then chant the name of the angel 3 times imagining the heavens opening and make your prayer or request.

4.3 With the Archangels, vibrate or sing his name and follow the steps of the visualization of the heavens opening and make your prayer.

4.4 With the Astrological Angels, chant the name of the regent Archangel and after the name of the Angel, until you feel a change of vibration or when you feel connected with him, follow the steps of the visualization of the heavens opening and make your prayer.

4.5 With the sentinels, chant the name Angel until you feel a change of vibration or when you feel connected with it, following the steps of the visualization of the heavens opening and make your prayer.

4.6 With the God Adonai and the Goddess Ashera, follow the steps of 4.3.

### Method 3° "traditional" approach

This method is very similar to the previous steps, but if you use candles and incense that represent your request and what you want to achieve, below I leave a brief explanation of the colors of candles and their purposes:

White candle: serves for any request, less for destruction of enemies or spiritual attacks, its regency is stronger in requests for enlightenment, peace, protection, blessings and so on.

Red candle: for requests related to war, competition, battles, vitality, vigor, physical/mental/emotional/spiritual forces, sex, lust, attraction, love, fertility, desires and defense.

Orange candle: vitality, energy, success, prosperity, money, good fortune and good luck, positivity, adaptability, sexual attraction, sexual magic, your planet is the Sun and its performances.

Yellow candle: mental strength and clarity, studies, knowledge, intellect, logic, visualization, charm, persuasion, attraction, concentration.

Green Candle: for growth, fertility, nature, healing, renewal, harmony, balance, money, prosperity and business, fidelity, love, marriage, affection, planet is Venus and all its powers.

Blue candle: rules spirituality, prosperity, meditation, healing, rest, patience, calm, sincerity, harmony, protection, dreams, transmutation, religion and faith, planet is Jupiter and rules its aspects

Purple candle: meditation, increase of spiritual and mediumistic abilities, dreams, intuition, vision, divination and all that is related to the spiritual world, its performances and manifestations, planet is Neptune with Jupiter.

Black candle: protection, breakage of spells/evil spells, spiritual attack, destruction, inner work with shadows and hidden and veiled things that the human being ignores, death and rebirth, planet is Saturn and governs its influences.

Brown candle: for requests for justice, grounding, stability, emergency cases, changes and travel, death and rebirth, and all the works of the earth.

Pink candle: love, devotion, intimacy, affection, tenderness, balance, passion, compassion, mercy, honor and friendship, faith, forgiveness, harmony and peace, planet is Venus.

Golden candle: serves for every performance, except for attacks and destruction.

About the incense, one can use any incense that is in accordance with your request.

The method is the following:

1° Prepare a place where you will not be interrupted, do a cleaning to remove the daily dirt, follow the steps of preparation described in the first chapters.

2° Take the seal of the angel you want and place it in the center of a table or place where you will do the ritual, light 3 candles according to your request in a triangle (you can mix the colors as needed and follow your intuition), place the seal of the angel in the middle (Print the seal by taking print of it by your cell phone or computer, or you can use it directly from your cell phone or ebook, in this case, do not use the bowl), on top of the seal, place a bowl of filtered water.

3° At the base of the triangle between a candle and another, light 3 incenses that correspond to your request or need.

4° Perform the Ascension ritual

5° Carry out the call of the 4 archangels

6° Meditate on the angelic seal, connecting with the angel in question and mentalizing the seal being formed in the heavens, and then, make the following conjuration:

"I invoke and evoke you El, Elohim, Adonai, Adiriron Ehyeh-asher-Ehyeh, El Shadai, make my voice be heard to all the corners of the universe, open the doors of heaven and earth, hear me! I manifest your will and authority here and now, from the beginning to the end of time, (name of the angel) which rules over this seal, hear me!"

7° Depending on the angel or God in question, follow the steps of the method of the previous conjuration, between 4 and 4.5.

## Final Notes

I say that no offering is need to angels so that they can fulfill your request, if they choose the most "traditional" method, candles and incense are already a offering to the angel; the best offering that can be given to any spirit is love, respect and friendship, we all want to be close to those who appreciate our company, who listen to us and are kind, so instead of calling an angel to have what you want and never call him again, call him periodically to create a relationship.

All the powers and all the angels listed here can be used for others.

About the pronunciations of the words, mantras and psalms, all are transliterated from Hebrew and placed as you "read," so don't worry if you think you're saying it wrong, just "sing" as it is written, the seal already connects you with the angel in question, and when you have these words of power, it just intensifies the connection.
